Doris New York Hair Care Products were used on each of our Models to promote healthy hair while going chic!

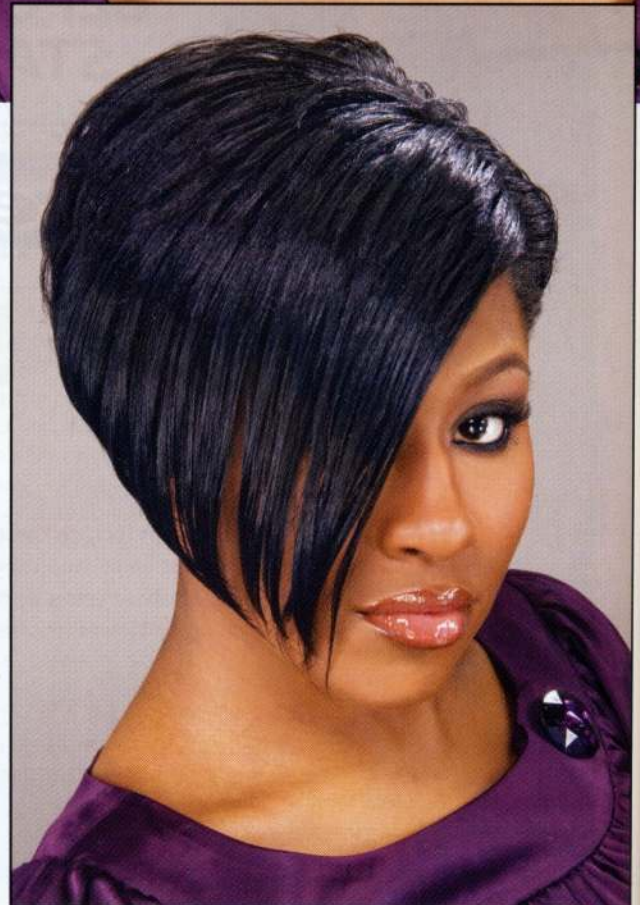

On our model Yago, we started off by giving her a light texturizer to soften her virgin hair. Her hair was dry and coarse with a lot of unruly ends. After Shampooing with Doris New York's High Moisture Shampoo, we saturated her

with Doris New York's Hot Oil Treatment to prevent breakage and add moisture. We wrapped it with a warm towel covering with a plastic cap and placed her under a hooded dryer for approximately 10 minutes, being careful not to keep her under the heat too long as revert the texturizer. After expired time we rinsed the hair and applied Doris' Leave-In-Conditioner and Hair Cream by placing a small amount in the hand and massaging it throughout the hair. We then used a blow dryer with an attachment and molded the hair with a flat iron and a small amount of Doris New York's Hair Oil to create that sleek chic look.

For Yago's second style we used several different sizes of hot irons to create the textured flip. This gave her more bounce and volume for a night out!

Talking short doesn't always mean your hair goes snip-snip. A cap weave is a perfect solution when you want to take it short but only for a moment.

On our second model Erin, we began by shampooing her hair with Doris New York's High Moisture Shampoo. After rinsing we gave Erin a Deep Treatment with Doris New York's Deep Treatment Conditioner, covered her hair with a plastic cap, and placed her under a hooded dryer for approximately 20 minutes. After expired time we rinsed and applied Doris New York's Leave-In-Conditioner and Hair Cream evenly throughout the hair. Next we sectioned and twisted her strands. She was placed under the dryer for approximately 45 minutes. Her hair was then taken out, styled and lightly sprayed with Doris New York's Hair Shine.

As a second look, full-bodied, tighter curls are created through the crown and finger combed.
